## **HOW ARE WE DOING?**

The Kelvin screener that teachers, staff, students and families took in September will be used to improve the climate of our district. Starting on Monday, October 19, staff, teachers, families and students will receive a new 5 to 9 question survey on our district's highest areas of Social Emotional Learning (SEL) competencies. These surveys, or pulses, will occur every other week, and will be open for 5 days to take. The dog icon on your computer indicates a pulse is waiting, and if you or a student enlarges it, it can be minimized to take at a better time.
